

PALM by handl — which size do I need?

Print this page at Actual size / 100%, then check the bar below before you use it.

This bar must measure exactly 100 mm. If it doesn't, reprint at Actual size / 100% (not 'Fit to page').

1. Look at the top of your bottle from the side

Round all over domed, with no step or ledge underneath

DOMES — one size, done

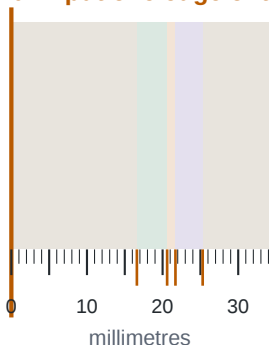

Flat a lever, paddle or flat top you press down

measure it — go to step 2

2. If it is flat, measure across the narrow way, at its widest

Look straight down on the pump top. Measure the **SHORT** way across, where that is widest — not the long way, and not corner to corner (see the drawing). Lay that width on the scale with one edge on the orange line and read where the other edge falls.

0 — put one edge of the pump top here

Where the other edge falls

16.6 – 20.6 mm
buy **STANDARD**

20.6 – 21.7 mm
outside both bands we sell — ask us

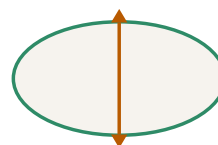

21.7 – 25.3 mm
buy **WIDE**

under 16.6 or over 25.3
made to measure — hello@gethandl.co.uk

Seen from above

long and narrow

broad and flat

measure the short way, at its widest

3. Or find your bottle in the list

Bottle	Top	You need
Baylis & Harding Signature	lever	STANDARD
Carex Aloe Vera Caring Antibacterial Hand Wash, 500 ml	lever	STANDARD
Same name on the label, different parts: the two Carex Original bottles below take different sizes. Read the description against the bottle in your hand before you choose.		
Carex Original Antibacterial Hand Wash, small / standard bottle The ordinary supermarket size, not the large wide bottle.	not recorded	STANDARD
Carex Original Antibacterial Hand Wash, approx. 500 ml Large wide flat-oval bottle, blue liquid. Standard would not go on.	saddle	WIDE
CeraVe Hydrating Foaming Oil Cleanser, 236 ml Green pump head.	not recorded	STANDARD
Cowshed hand lotion Tall black bottle, pewter pump head. Standard seats only if pushed hard, and wobbles. Wide has not been tried.	not recorded	not Standard — ask us
Cussons hand wash, honey and bee label	saddle	WIDE
Decorative refill dispenser (you decant into it), chrome	dome	DOMES
Decorative refill dispenser (you decant into it), matt black	dome	DOMES

Still not sure? These are the widths we sell each size against, set inside what each slot can take until a real pump has been measured. Outside them, or 20.6 – 21.7 mm, ask before you buy: a photo of the pump from the side with a 2p coin beside it, to hello@gethandl.co.uk. If the size turns out wrong, we exchange it free.
